

# Carpet Mat Upgrade

vGroup International continue their improvement and development of their core product range

vGroup International are market leaders within the motoring industry, with this in mind, they have worked hard to evolve the handover experience.

Part of the changes made are to upgrade the quality of the product through the introduction of new and improved products.

In line with the improvements they are making, they will be discontinuing some of their carpet qualities, including Paris. This will be replaced with Parma, a more durable, higher quality carpet mat that will carry a 3 year, unlimited mileage guarantee.

There will be a small increase in cost, however, not reflective of the significant improvement in quality.

## Palma Mat Specifications

- 600g/sqm tufted polyamide velour
- High quality jute/latex backing
- Colour matched edge binding
- Anti-static and stain resistant

We will be in touch to discuss or, alternatively, please contact Laura Clapham
